

Inset Cabinetry

STARMARK®
CABINETRY

Fairhaven door style in Quarter Sawn Oak
finished in Pearl with Bronze glaze.
Shown in Flush Inset with standard slab drawer headers.

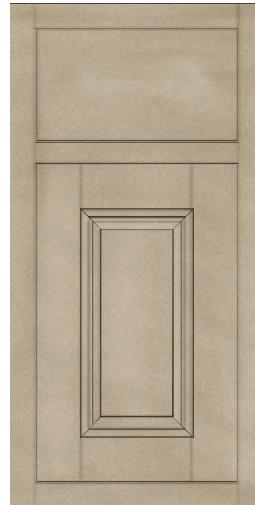

Inset Cabinetry

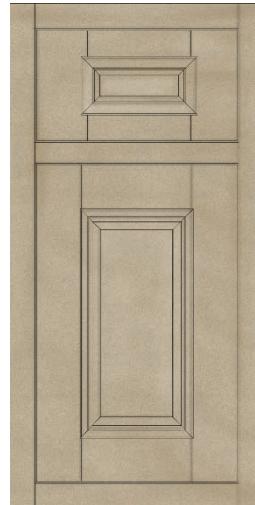

Inset cabinetry is a time honored design. Craftsmen generations ago created fine inset cabinetry for their homes and select clients. Today, you can have the clean, distinctive lines of inset cabinetry, built with quality StarMark Cabinetry construction.

Our complete collection of Tinted Varnish inset cabinet colors is shown below.

This icon indicates that the color can receive Old World Distressing illustrated on page 23.

Our complete collection of Specialty inset cabinet colors is shown below.

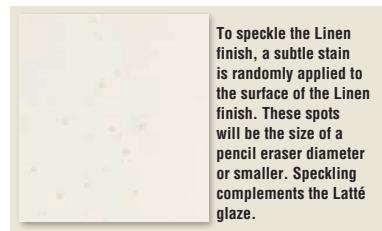

SPECIALTY COLORS are cabinetry finishes that take your room to a whole new level. Artistic effects are added to popular colors to add character and in some cases, a vintage feel.

LINEN

A specialty color for Maple cabinetry

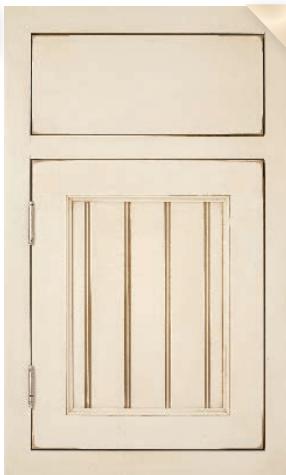

Linen finishes feature Latté glazing and speckling for a softer tone, and rounded corners for an heirloom feel. Available on Maple door styles.

To speckle the Linen finish, a subtle stain is randomly applied to the surface of the Linen finish. These spots will be the size of a pencil eraser diameter or smaller. Speckling complements the Latté glaze.

Lafayette door style in Maple finished in Linen Ivory. Shown in Flush Inset.

Lafayette door style in Maple finished in Linen Mushroom. Shown in Flush Inset.

Lafayette door style in Maple finished in Linen White. Shown in Flush Inset.

VILLA

A specialty color for Maple cabinetry

The Villa finish results in a look that suggests brush strokes along the face of the doors and drawers, and any other finished part of the cabinetry. The color and brush stroke technique will vary from door to door and will blend throughout the cabinetry. Available on Maple door styles.

Fairhaven door style in Maple finished in Villa Ivory. Shown in Flush Inset.

AMARETTO & BORDEAUX

Specialty colors for Maple cabinetry

Amaretto and Bordeaux are Black finishes with rounded corners, worn edges and light chain distressing. Additional worn areas on center panels and door frames expose golden butterscotch tones on the Amaretto finish and beautiful burgundy tones on the Bordeaux finish. Available on Maple door styles. Amaretto and Bordeaux can receive Old World Distressing, illustrated on page 24.

Lafontaine door style in Maple finished in Amaretto. Shown in Flush Inset.

Lafontaine door style in Maple finished in Bordeaux. Shown in Flush Inset.

This icon indicates that the color can receive Old World Distressing illustrated on page 23.

LICORICE

A specialty color for Maple and Quarter Sawn Oak cabinetry

Licorice is a Black finish with rounded corners, worn edges and light chain distressing. Nickel glaze is applied to accent the door profiles. Available on Maple and Quarter Sawn Oak door styles.

Alexandria door style in Maple finished in Licorice. Shown in Flush Inset.

Rock Elm door style in Quarter Sawn Oak finished in Licorice. Shown in Flush Inset.

Specialty colors

CHATEAUX

A specialty color for Cherry cabinetry

Chateaux is created by randomly applying several distressing techniques, softening all edges, padding the edges to create shadowing, and adding speckling to accentuate the distressing. Patina is accomplished with **1. rounded corners 2. worn edges 3. knife cuts 4. worm holes 5. rasping 6. dips** and **7. light chain distressing** that we hand apply to drawers, doors and throughout the cabinetry. A protective topcoat completes the look. The finish is oven cured for durability. Chateaux colors are shown below. Chateaux is available on Cherry door styles.

Alexandria door style in Cherry finished in Chateaux Brittany. Shown in Beaded Inset.

Chateaux Cappuccino

Chateaux Nutmeg

Chateaux Oregano

Chateaux Toffee

Laforest door style in Maple finished in Oatmeal. Shown in Flush Inset.

HOMESTEAD RED

A specialty color for Alder and Rustic Alder cabinetry

Homestead Red is a deep red tinted varnish applied to Alder and Rustic Alder. Several distressing techniques are applied randomly and heavily. Distressing marks are

1. rounded corners 2. worn edges 3. knife cuts 4. abundant worm holes 5. rasping

6. dips 7. light chain distressing and

8. chiseling. They are applied to drawers, doors and throughout the cabinetry. A protective topcoat completes the look. The finish is oven cured for durability. Homestead Red is available on all Alder and Rustic Alder door styles.

Danburg door style in Alder finished in Homestead Red. Shown in Flush Inset with optional five-piece drawer headers.

Cottage Distressing

Cottage Distressing is a sweet, welcoming look created with rounded corners and worn edges. A third technique, light chain distressing, is optional. Glaze brings out the wood's unique texture, and a durable topcoat completes the process, protecting both the color and the marks.

Cottage Distressing is available on:

- Any Stain with Glaze combination. See page 18.
- Any Tinted Varnish with Glaze combination. See page 19.

Kingsberry door style in Maple finished in Marshmallow Cream with Chocolate glaze and Cottage Distressing.
Shown in Flush Inset with standard slab drawer header.

Old World Distressing

Danburg door style in Maple finished in Peppercorn with Chocolate glaze and Old World Distressing. Shown in Flush Inset with optional five-piece drawer header.

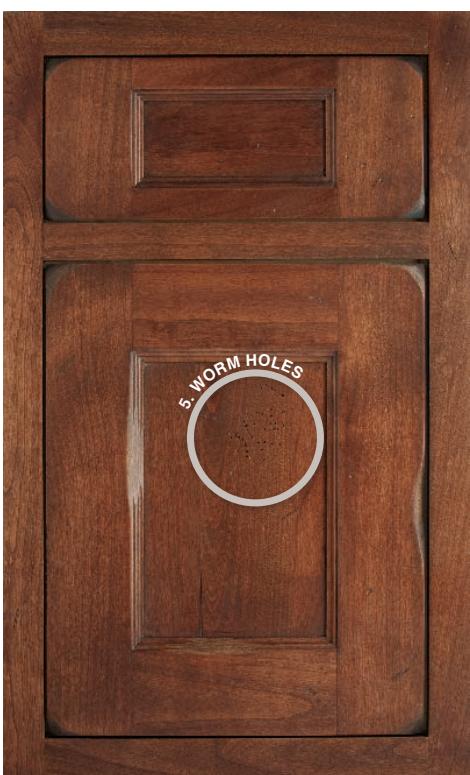

Danburg door style in Alder finished in Butterscotch with Chocolate glaze and Old World Distressing. Shown in Beaded Inset with optional five-piece drawer header.

Old World Distressing blends your new cabinetry with today's popular distressed furniture pieces. Distressing techniques are randomly applied to the face of your cabinetry throughout the design. These techniques are:

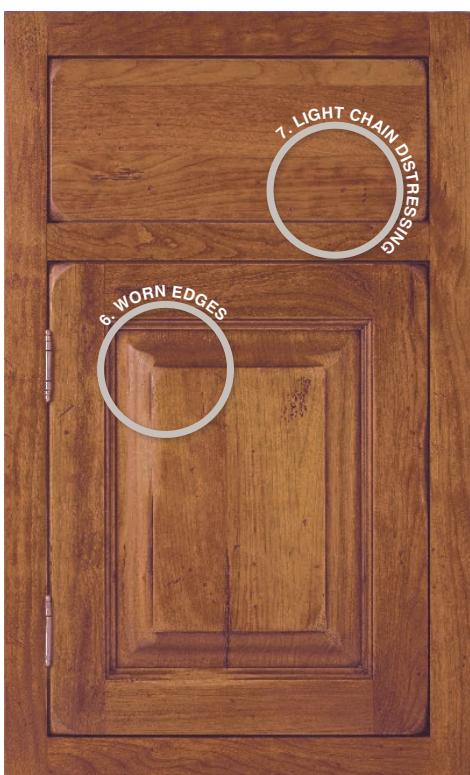

1. rounded corners
2. rasping
3. dips
4. knife cuts
5. worm holes
6. worn edges
7. light chain distressing.

Look for this icon on pages 18–19 for color combinations that can receive Old World Distressing.

Knottingham door style in Alder finished in Toffee with Chocolate glaze and Old World Distressing. Shown in Flush Inset with optional five-piece drawer header.

Laforest door style in Cherry finished in Butterscotch with Chocolate glaze and Old World Distressing. Shown in Beaded Inset with standard slab drawer header.

CHISELING

Chiseling is used to create Homestead Red.

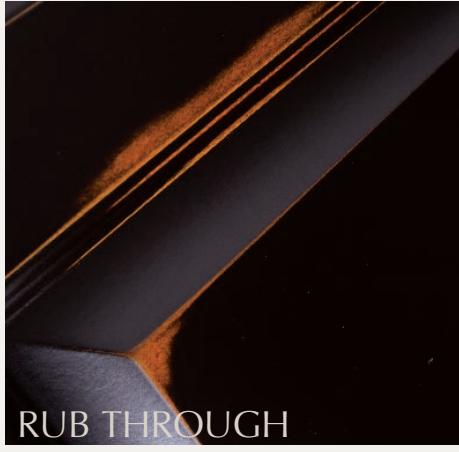

DIPS

Dips are used to create Chateaux and Homestead Red and they are included in Old World Distressing.

KNIFE CUTS

Knife Cuts are used to create Chateaux and Homestead Red and they are included in Old World Distressing.

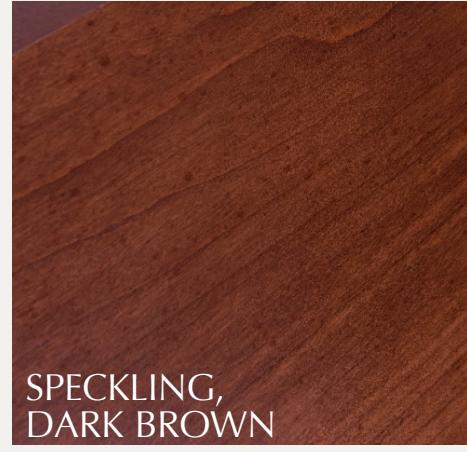

RUB THROUGH

Rub Through is used to create Amaretto and Bordeaux.

SPECKLING, LIGHT BROWN

Speckling is used to create Linen.

SPECKLING, DARK BROWN

Speckling is used to create Chateaux.

Distressing illustrated

StarMark Cabinetry uses several techniques to add character and appeal to cabinetry. They are illustrated on these two pages. All of our distressing marks are added by hand. There is no machine and there is no robot that can successfully duplicate what the eyes and hands of an artisan achieve through personal handling of the cabinetry.

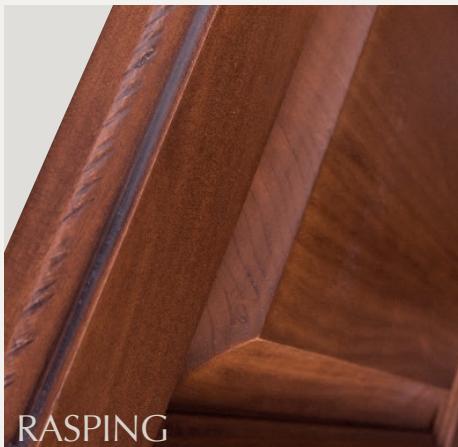

Artisan Effects

PADDING

Padding is used to create Chateaux.

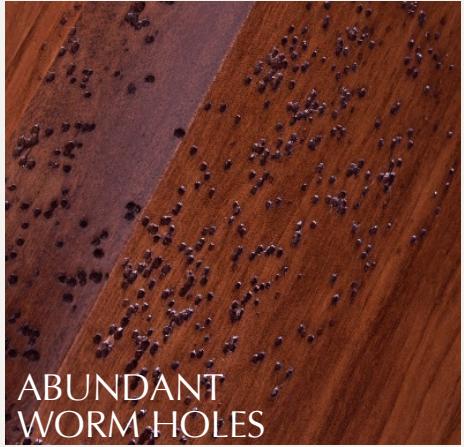

RASPING

Rasping is used to create Chateaux and Homestead Red and it is included in Old World Distressing.

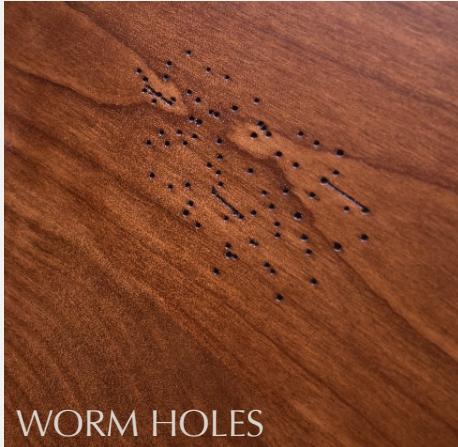

ROUNDED CORNERS

Rounded Corners are used to create Amaretto, Bordeaux, Chateaux, Homestead Red, Licorice, Linen and Oatmeal. They are included in Cottage Distressing and Old World Distressing.

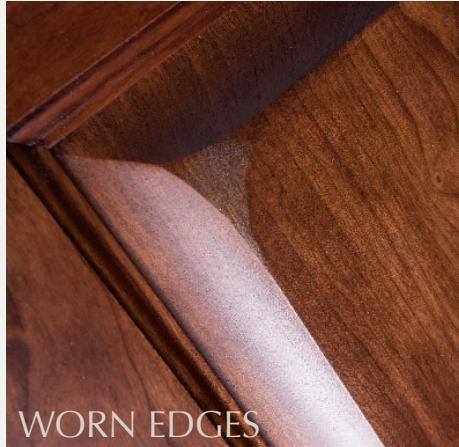

ABUNDANT WORM HOLES

Abundant Worm Holes are used to create Homestead Red.

WORM HOLES

Worm Holes are used to create Chateaux and are included in Old World Distressing.

WORN EDGES

Worn Edges are used to create Amaretto, Bordeaux, Chateaux, Homestead Red, Licorice, Linen and Oatmeal. They are included in Cottage Distressing and Old World Distressing.

A Light Touch

SPATTERING

Spattering is a dark stain, hand applied randomly to the cabinetry.

- Spattering on stain with glaze combinations is free of charge.
- Spattering on an unglazed stain is available on all species at an upcharge.

LIGHT CHAIN DISTRESSING

Light Chain Distressing is used to create Amaretto, Bordeaux, Chateaux, Homestead Red, Licorice, Linen and Oatmeal. It is included in Cottage Distressing and Old World Distressing.

- Light chain distressing on Tinted Varnish with glaze combinations is free of charge.

Light chain distressing is available at an upcharge on:

- all stains on any wood type
- all stain with glaze combinations on any wood type
- all Tinted Varnish on Maple, Oak or Quarter Sawn Oak

wood types

Alder is a softer wood with a fine straight grain and even texture. Color is light brown with yellow or reddish tinge, with little difference between heartwood and sapwood. Alder does not evolve in color or darken when exposed to light or heat as other woods do, and takes stains and finishes well. More than some of the other woods, care must be taken to avoid damage due to its softer nature. Some small tight knots can be found with standard Alder.

Rustic Alder refers to the Rustic version of this wood type. Rustic Alder is characterized by knots, burls and mineral streaks found on center panels, stiles and rails of the door, and on the drawer headers, which could impact hardware placement. Knots will be sound and will be closed, but certain angles could show light through the knots. Glazing Rustic Alder will enhance these unique characteristics.

Cherry displays a distinctive grain pattern and warm color. The color ranges from nearly white to dark reddish brown. Dark pockets, pin knots, and random streaks are common. More than most woods, Cherry will darken when exposed to light, especially in light stains. The more sun Cherry receives, the faster it will darken. This will be most evident in new wood and will slow as it ages.

Lyptus is a hard, fine-grain hardwood with a rich, warm tone. Lyptus comes from fast-growing eucalyptus trees that are ready to be harvested within 14 to 16 years of planting. These trees are grown on non-tropical, certified plantations. Color variations can be extreme, but they are minimized when you choose a darker stain. More than most woods, Lyptus mellows and darkens with exposure to light. When Lyptus is stained in a dark color, it looks very much like mahogany.

Maple is a versatile hardwood with a fine, smooth grain. It varies in color from nearly white to a slightly reddish brown. Mineral or sugar streaks occur naturally in Maple and can vary from piece to piece. Variations will be more noticeable in lighter stains.

Quarter Sawn Oak is milled at an angle of 60 to 90 degrees from the grain, allowing rays and flecks to become visible, giving the wood a unique, often vintage, character and dimension.

ENVIRONMENT

StarMark Cabinetry is CARB II compliant and ESP certified. Kitchen Cabinet Manufacturers Association Environmental Stewardship Program. All products impact the environment. For ESP program criteria, visit greencabinetsource.org.

STARMARK CABINETRY IS ESP CERTIFIED.

In 2006, the Kitchen Cabinet Manufacturers Association (www.kcma.org) began certifying cabinet manufacturers who prove they are using sustainable practices and products. Certification must be earned yearly.

StarMark Cabinetry was one of the first companies to earn ESP certification, and we have earned the certification each year. ESP certification is awarded to manufacturers who use materials with low formaldehyde emissions, use recycled materials, and use hardwoods certified through a recognized sustainable forestry program.

ESP requires manufacturers to have a written environmental policy and to work with their suppliers to protect the environment.

WHY SHOULD I TRUST ESP?

Unlike other certification programs, ESP takes into account the complete life cycle of a product. ESP requires recycling and energy conservation. Unlike many other certification programs, ESP encourages local community involvement.

Find out more about ESP at www.greencabinetsource.org.

KCMA has proven their ability to set and enforce rigorous standards as verified by the American National Standards Institute (ANSI).

STARMARK CABINETRY IS CARB II COMPLIANT.

In technical terms, this means 100% of StarMark Cabinetry's products are compliant with the California Air Resources Board (CARB) Airborne Toxic Control Measure (ATCM) to reduce formaldehyde emissions from composite wood products including hardwood plywood (HWPW), medium density fiberboard (MDF), and particleboard (PB) (Title 17, California Code of Regulations §93120-93120.12).

In laymen's terms, it means that StarMark Cabinetry complies with the nation's strictest regulations regarding formaldehyde.

StarMark Cabinetry's CARB II compliance coupled with its ESP certification assures that your cabinetry is manufactured by an environmentally responsible company with environmentally friendly manufacturing materials and processes.

Specialty Colors have characteristics that cannot be captured on a color chip, so color chips are not available in Amaretto, Bordeaux, Chateaux, Homestead Red, Licorice, Linen, Oatmeal and Villa. Request a door sample to view these unique, beautiful colors.

Specialty Colors are cabinetry finishes that take your room to a whole new level. Artistic effects are added to popular colors to add character and in some cases, a vintage feel.

STAIN

A stain is a basic yet substantial finish that adds color to wood while revealing the beauty of the grain. The wood type affects the color of the stain, so the same stain will look different on each wood type. In some cases, the difference is dramatic. For the richest, most consistent color coverage, we apply the stain and then hand rub it into the wood. There are no machine shortcuts: elbow grease is the only way to coax the luster from stained wood.

TINTED VARNISH

The best way to describe Tinted Varnish is to say it gives cabinetry a paint-like finish. However, our Tinted Varnish is much more durable than paint. Throughout the country, this type of finish is also called "enamel" or "opaque". Tinted Varnish is available on Maple and Quarter Sawn Oak cabinetry, and each wood yields a different look. The grain of Maple wood is concealed by Tinted Varnish and the grain of Quarter Sawn Oak shows through Tinted Varnish.

GLAZE

StarMark Cabinetry has five glaze colors: Bronze, Chocolate, Ebony, Latté and Nickel. Glazes are available to go over both stains and Tinted Varnishes. We apply the glaze by hand and then wipe it off by hand. When our craftsman wipes off the glaze, he or she can best use the glaze to define the details in that particular kitchen. The profiles on a door and drawer, and other details on cabinetry, such as corbels, rosettes or shells, are stunning when glazed. We glaze every part of your cabinetry by hand—doors, drawers, moulding and panels.

OPTIONS FOR STANDARD PALETTE COLORS

The standard palettes for Stain and Tinted Varnish are shown on pages 18–19.

WARRANTY

StarMark Cabinetry's construction, materials and all finishes are covered by a Limited Lifetime Warranty.

CONSTRUCTION CONSIDERATIONS

Inset cabinetry has doors that are precisely "set into" the cabinet's face frame. We manufacture inset cabinetry with tight reveals and take great care to create square, true cabinets. When adding inset cabinetry to your home, consider:

1. Quality installation is a must. If cabinets are not installed properly, doors may appear warped even though they are not. Every homeowner should expect their walls and floors to have variations; a well-qualified installer can properly shim inset cabinetry so it does not become out of square.
2. Homeowners should be prepared to adjust their doors seasonally as temperatures change.
3. Wall and utility wall inset cabinets are 12" deep. The standard inside storage dimension is 10¾". Unless the cabinet is modified to a greater depth, the cabinet will not accommodate oversized plates or dinnerware.
